Rig Runner Safe Practices Handbook Addendum

HIGH VISIBILITY WARNING GARMENTS

- High visibility is one of the most prominent needs for workers who must perform tasks near moving vehicles or equipment. The need to be seen by those who drive or operate vehicles or equipment is recognized as a critical issue for worker safety. The sooner a worker in or near the path of travel is seen, the more time the operator has to avoid an accident.
- § 1926.651(d) Employees and/or contractors exposed to vehicular traffic shall wear warning vests or suitable garments marked with or made of reflectorized or high-visibility material.
