HOW TO TRACK DISPATCHED LOADS

DISPATCH MANAGER

COLOR GUIDE

Yellow	Load is 'Dropped', that is, it has been picked up by a driver/carrier and dropped at a location other than the final consignee.
Blue	Load is 'Reserved' for a driver or carrier.
Light Gray	'Possible' load – a 'Possible' load is just that – one that may or may not happen.
Gray	'Pending' load – a 'Pending' load is visible only to the user who created it. A Pending load is one that you do not want released until a specific date, at which point the load becomes visible to all.
Light Orange	Load is 2-8 hours out from Pickup or Delivery.
Medium Orange	Load is 1-2 hours out from Pickup or Delivery.
Dark Orange	Load is within 1 hour of Pickup or Delivery.
Red	Load is 'Late' for Pickup or Delivery.
White	Load is 'Available' and is not assigned nor has it been dropped.

HOW DOES THIS HELP YOU?

Driver Usage of PCS Mobile Express allows:

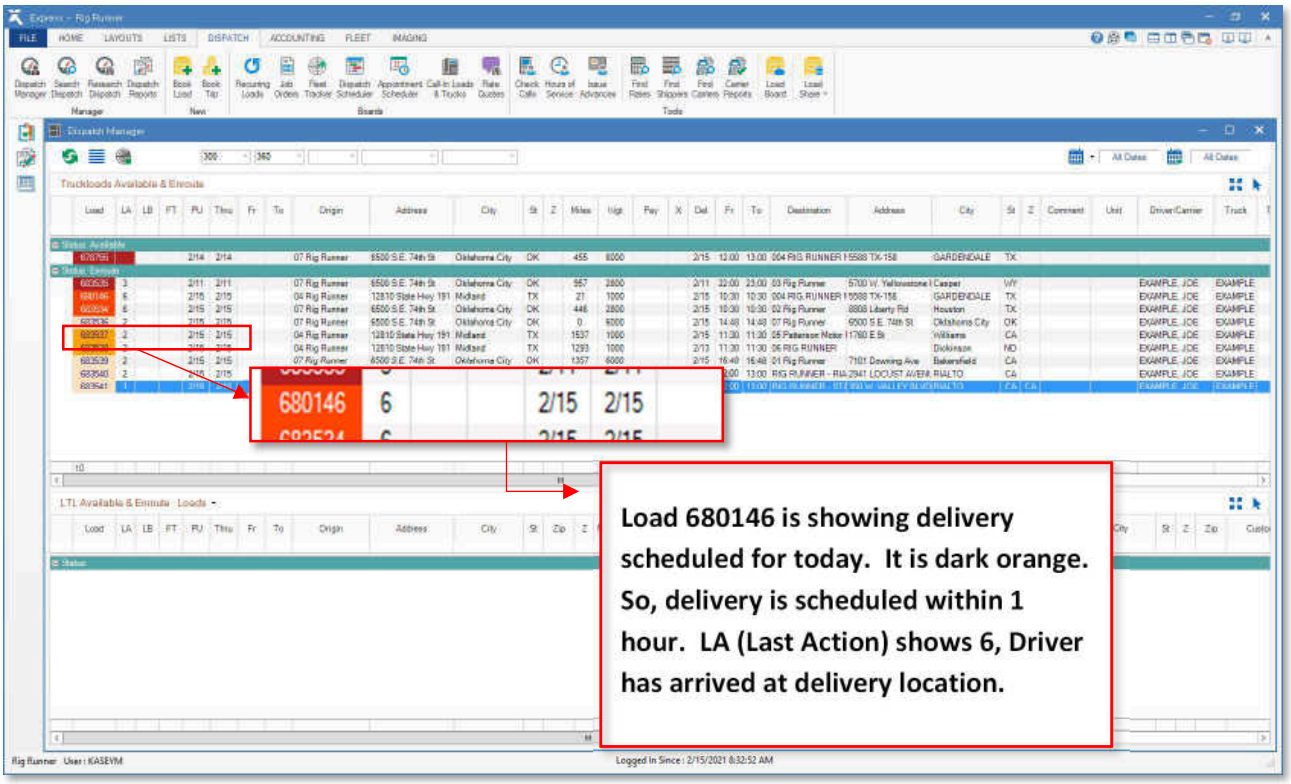

- Load On-time, Delayed, or Late
- Proactive Customer Service!
  Notify customers of any delays
- Improves performance of Fleet Tracker.
  Fleet Tracker will allow centralized searching for backhauls - easier & more efficient if we know where our trucks will be and when.
  This will only happen with good data!

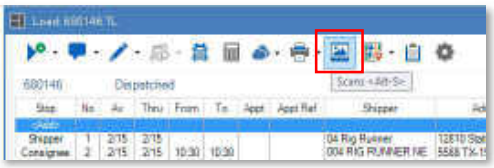

AFTER DRIVER HAS COMPLETED LOAD

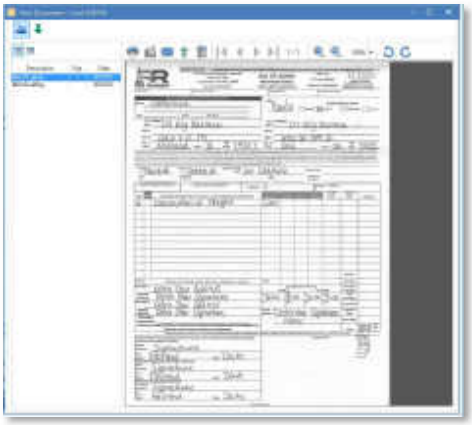

AFTER DRIVER HAS COMPLETED THE LOAD – LA SHOWS #6 IN PCS:

1. Verify delivery updated in PCS. This will update automatically if the driver is utilizing PCS Mobile Express correctly. If there are no LA (Last Action) updates, speak with your driver about utilizing the app.

2. Open the Load & Verify the driver has uploaded paperwork.

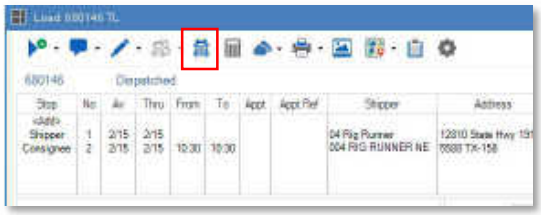

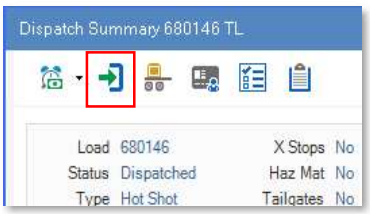

3. Verify billing requirements

   a. Gating Events (Cameron c/o XPO, Schlumberger, Baker Hughes, etc.) are complete
   b. Tender/PO/Non-PO Form/BOL is uploaded for the shipment.
   c. Rates

4. Arrive Load
