Rig Runner

Short Service Employee (SSE) Management Program

1. Purpose

The Short Service Employee (SSE) Management Program applies to employees or subcontractors who have less than six months experience in the area of work in which they were hired. The purpose of the program is to prevent work related injuries and illnesses to new hires, temporary workers and subcontractors.

2. General Requirements

All Rig Runner short service employees and subcontractors are to be managed in accordance with this program to ensure that they have an initial orientation of the Company‘s health and safety requirements prior to performing work.

- An SSE may only work under the direct on-site supervision of a designated employee who, as one of his duties, serves as a mentor/trainer for the SSE. The mentor/trainer assigned to an SSE must be a knowledgeable, experienced employee who can provide guidance and development for the SSE.
- An SSE must be easily identified while on a job site. This is accomplished by using a unique identifier to be determined prior to starting work.
- An exception to the SSE Identifier may be granted to new employees where Rig Runner has verified a have a high level of previous work experience in the same job functions.
- A single person crew cannot be an SSE, SSEs must not exceed 50% of a single work crew.

3. Procedure

General

Supervisor Responsibilities to SSE:

- Assure they have completed Rig Runner safety orientation
- Assure they are aware of and understand the contents in Rig Runner's Accident Prevention Program and Emergency Action and Response Plan
- Assure they have completed all mandatory training
- Assign a mentor/trainer to each SSE
- Discuss the job expectations and procedures prior to the job to provide a clear understanding of what is expected
- Notify the customer if an SSE will be working at their facility
- Provide customer with a proper identifier so the SSE is easily recognizable
    - Orange Hard Hat, Orange High Vis Vest
- Obtain SSE acknowledgement of the program (See Attached Acknowledgement Form.)

Mentor/Trainer Responsibilities to SSE:

- Set the proper safety example
- Assure the SSE has complete knowledge of their job functions
- Converse frequently with those SSEs assigned to them to discuss any questions or concerns they may have
- Complete a monthly SSE Employee Progress Assessment in KPA for first 6 months of SSE employment

SSE Responsibilities:

- Shall consult with and listen to mentor and supervisor
- Shall perform work as directed
- Shall speak up when and if work is deemed unsafe
- Shall wear identifier clothing as instructed

4. Monitoring

Supervisors will monitor employees, including SSE personnel and subcontractors, for awareness of the health and safety policies and procedures.

If at the end of the six, month period, the SSE has worked safely, adhered to the Company's health and safety policies and has no recordable incidents attributable to him/her, the SSE identifier may be removed once the SSE has successfully met the requirements of a job knowledge and skills assessment.
